

Thank you for using GW3

GW3 is an activity tracking fitness watch which records your daily steps, calories and sleep pattern. By connecting to your Apple® iOS device, you can check your daily activity information. We believe GW3 would be your best 24 hours day and night fitness watch.

App installation

To begin installation of GW3 app, scan the QR code in the right and your Apple® iOS device will take you to Apple® App Store for downloading.

Device and App user guide

Step 1: Please fully charge your GW3 before first time use.

Step 2: Tap your GW3 for 2-3 times to illuminate your GW3. Then, tap or shake again to change display pages.

Step 3: Go to DEVICE page in your GW3 APP and pair your GW3 with Apple® iOS device. Please note that you have to enter a code shown in your GW3 into your GW3 APP during the pairing process.

Step 4: You can use your GW3 to record your daily activity and check your activity information via transferring your record to GW3 APP.

PS: Please note that the step, calorie and sleep data in your GW3 will be retained only for 7 days. Please synchronize your GW3 with GW3 APP no longer than every 7 days to avoid losing your record.

Device Charge Method

1. Take out your GW3 main device from its band.
2. Charge your GW3 with micro-USB cable.
3. It takes about 2.5 hours to get fully charged.
